Catalina Hooser was a beloved Regis University graduate who died too young, just a year after graduating in 2015 with a degree in sociology and a minor in peace and justice studies. She is remembered for her passionate advocacy for social justice issues, her strong leadership, her humor, and her deep loyalty as a friend. The Catalina Hooser Scholarship Fund seeks to honor her legacy by supporting undocumented, first-generation and/or students coming from mixed status families for whom the pursuit of higher education can present extra challenges.
